

Our Key Products

January 2025

Introduction

Additive designed to elevate the performance of your solvent-based clear coatings.

Specialized marketing and sales company in the CASE sector:

Coatings,

Adhesives,

Sealants and

Elastomers industries.

Advanced additives developed by formulation and application experts.

Serving customers in the paint and coatings sector.

Our Offering

- Particle Synthesis / Development of Synthesis Routes
- Chemical Modification / Surface Treatment of Particles
- Adjustment of Particle Sizes and Distribution

nanoSaar CASE BR 100

Additive designed to elevate the performance of your water-based colorants, stands at the forefront of technology, designed to meet and exceed the demanding standards of professional paint manufacturers.

Its unique properties give new benefits to colorants, ensuring superior product performance versus regular polymer-based technologies across various applications.

nanoSaar CASE BR 100

Advanced Additive for Color Pastes

-  **Enhanced Stability:** Longer-lasting pigment pastes
-  **Zero Viscosity Impact:** Smooth application and flow
-  **Optimized Dispersants:** Reduced cost and effort
-  **Preserved Properties:** Maintains gloss and color fidelity
-  **Enhanced Color:** More vibrant with subtle bluish undertones
-  **Easy Integration:** Low viscosity for smooth formulation

nanoSaar CASE SL 100

SL 100 offers unparalleled benefits that will transform your coatings.

By choosing SL 100, you are not only enhancing the quality of your coatings but also optimizing your product costs, giving you a competitive edge in the market.

nanoSaar CASE SL 100

Cutting-Edge Additive for Solvent-Based Clear Coatings

Improved Abrasion Resistance: Superior durability and protection

Compatibility: Seamless integration with solvent-based systems

Preserved Optical Properties: Maintains clarity and gloss

Cost-Effective: High performance at an economical price

Automotive: Retains showroom finish even under harsh conditions
